

We have selected strategies to increase early grade reading proficiency in our community.

A. Individually:

1. Take 2-3 minutes to complete the “Is This a Good Community Impact Strategy” self-check (*both sides*).
2. Take another minute to star three items that you believe offer the greatest opportunities for strengthening your strategies and approaches.

B. As a group:

1. Tally your group’s answers for each item. *Note that items with several “SOs” or “NRs” probably indicate opportunities to make your strategies and approaches even stronger. Items with several “?”s probably indicate that strategies and approaches and how they were developed are not being shared adequately across staff teams or functions.*
2. Agree on 3 specific aspects of your strategies and/or approaches and 3 aspects of the ways in which they were developed that offer significant opportunities for strengthening your strategies and approaches to make them even more effective.
3. Agree on steps you will take to strengthen each aspect and who needs to be involved.

Aspects of strategies/approaches to strengthen

Steps to take to strengthen each aspect

Who needs to be involved
